

SOLVETAN

Specialist solvents for single- and two-component resins.

Average consumption

Depends on the product and how it is used

Pack sizes

1 L • 5 L • 10 L

DESCRIPTION

Using generic solvents can compromise the final outcome of treatments with advanced, high-performance resins. Naici offers a range of dedicated products designed specifically for thinning single- and two-component resins.

INTENDED USE

Specific thinner for products that require dilution to ensure proper application.

BENEFITS

- Product for thinning
- Solvent
- For single- and two-component resins

This data sheet is based on our best knowledge of the product. As we have no control over its application and there are many possible conditions of use, NAICI accepts no liability for the use of this product. Always refer to the latest updated version of the technical data sheet, available at naici.it, or contact ufficiotecnico@naici.it
